

Priorities for Use Salt/Grit in Winter

The grit bins in Beer are strategically placed to allow gritting of priority public routes both for footpaths and on inclines on roads. Consequently it is a priority to keep grit bins replenished.

The highest priority footpaths are:

- Clapps Lane across car park to Doctors Surgery
- Fore Street
- Routes to School eg. Pigs Path to Mare Lane

The highest priority road areas are:

- Mare Lane i.e. route to School and Peco
- Bottom of Southdown near junction with and Park Road/Clapps Lane i.e. Coastguard route

When exceptionally severe conditions are expected we intend keeping two road routes gritted through the village by use of our towable grit spreader, namely:

1. Fore Street – Clapps Lane - Park Road – Underleys – Mare Lane and upper part of Causeway. i.e. bus route No 899 and part of route to Peco and School.
2. Fore Street - Common Lane – Southdown - Park Road.
